

Read section 19.10. Add ANAs to the CDs below that shows how several ways of life developed in China because of geography and for the boxes below

A. Fewer people settled in Outer China than in Inner China, which was much more suitable for farming.

- 1.
- 2.
- 3.
- 4.

B. The fertile land of Inner China, supported larger and more settled populations.

- 1.
- 2.
- 3.

2. In each box, draw one type of food, shelter, or activity (such as farming or herding animals) that might be found in that geographic region.

Again, use section 19.10 for the information in the boxes

Elevation	
Level 1: 0 – 1,150 feet	<input type="checkbox"/>
Level 2: 1,150 – 4,500 feet	<input type="checkbox"/>
Level 3: 4,500 – 8,200 feet	<input type="checkbox"/>
Level 4: 8,200 – 18,000 feet	<input type="checkbox"/>
