

## Prehistory Unit Test Study Guide

Know the stages of development in *skills* and *customs* for the early hominids.  
(Look over your 2 column notes and HA Ch. 2)

**3 Picture Analysis Questions:** Be able to look at a scene (*we looked at these in class*) and decide which early hominid the scene is depicting. You will need to support your claim with 3 examples of evidence you see in the scene elaborating on each piece of evidence.

Be able to place the hominids in sequential order of when they were on earth. (*look at our timeline*)

Know any prominent paleoanthropologists who discovered them.

Australopithecus afarensis (“Lucy” - Biped) – Donald Johanson

Homo Habilis (“Handy Man” - Tools) – Louis and Mary Leakey

Homo Erectus (“Upright Man” – Travel/Fire) – Eugene Dubois

Homo Sapien Neanderthalensis (“Wise Man” or Neanderthals – Sense of Community)

Homo Sapiens Sapiens (“Doubly Wise Man” or modern man)

Know the difference between **Paleolithic** and **Neolithic** Time Periods. Understand the major changes that happened during these time periods and how they impacted life for the early hominids.

(Look over your “Paleolithic vs. Neolithic Times” chart.)

These will be multiple choice questions.

### Essay Question:

The **Agricultural Revolution** caused a *shift* for man from living as *roaming hunters and gatherers*, toward living in a *settled civilized society*. Write a paragraph describing and explaining the *cause* and *effect* and *sequencing* of those changes. (*Hint: review the flow chart from your Stone Age Timeline*)

### Know these terms:

Prehistoric	Stone Age	Bronze Age (3000 BCE)	Trade	Domesticate
Hominid	Paleolithic Age (2 mil BCE – 8000 BCE)		Community	Civilization
Biped	Neolithic Age (8000 BCE – 3000 BCE)		Agriculture	Migration

Review Fields of Study terms, definitions... BE ABLE to apply to some Prehistoric examples. (4 questions)

History	Archaeology	Anthropology	Geography
Political Science	Mythology	Philosophy	Psychology
Economics	Theology	Sociology	Technology
Civics	Culture		

Review Geographical terms we covered in class, you should be able to identify them on the map: (8 questions)  
(Look over your Geography Challenge maps and the Neolithic Map on your Stone Age Timeline Notes.)

Names of seven continents	Arabian Peninsula
Oceans (Atlantic, Pacific, Indian, Arctic)	Where Early Neolithic Settlements were located
Equator	(Jarmo, Jericho, Catal Huyok)
Prime Meridian	Hadar, Ethiopia
Eastern and Western Hemispheres
